

DHW100 - HEAVY DUTY BIODEGRADABLE WET WIPES

Description:

Heavy-duty, plastic-free wipes are compliant with the new UK regulations which come into effect December 2026 and May 2027. They are biodegradable and plastic-free - perfect for industrial cleansing and degreasing, however no wet wipes are suitable for flushing.

Perfect for removing:

Grime, grease, sealants, expanding foam, paints, and adhesives.

Starting on 18-19 May 2027 in England, Scotland, and Northern Ireland, and 18 December 2026 in Wales, these UK nations are enforcing a ban on single-use wet wipes containing plastic.

OTHER ADDITIONAL INFORMATION
