

## EBW - IP65 MODULAR PLASTIC ENCLOSURES WITH TRANSLUCENT LID

### Description:

Sleek, modern, IP65 surface mounting modular polycarbonate enclosures with lockable lid, removable earth/neutral bar and pre-fitted blanks, to provide local or individual circuit control.

### Material:

Polycarbonate

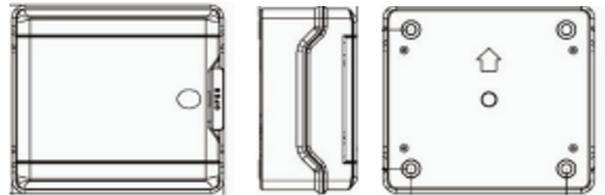

### IP Rating:

IP65

## OTHER ADDITIONAL INFORMATION

Code	Modules	Dimensions (mm)		
		Height	Width	Depth
EBW4	4	200	128	100
EBW6	6	200	164	100
EBW8	8	200	218	100
EBW12	12	203	296	120

### IP65 Protection Level

The top cover and bottom casing are sealed with waterproof gaskets, enhancing overall water resistance.

### Buckle Structure

Reinforced buckle design enhances frame and cover reliability.

### Reserved Function Sticker Position

Designated spot for functional stickers ensures clear view of control area.

### Latch Function

Anti-theft lock mount reserved  
(Code: **EBWKEY**)

### Circuit Baffle Structure

Side circuit baffles provide partial filling and easy removal. Strips (Code: **EBWSTRIP**) and Blanks (Code: **EBWBLANK**) available.

### Loose Frame Structure

The fixed frame uses captive screws - loosen after removing the face frame without risk of loss.

### Terminal Assembly

The terminal block passes the 960°C glow-wire test, ensuring safe performance. Removable terminal bar, top or bottom of enclosure.

### Can be Opened Arbitrarily

Holes can be opened freely according to application needs.
