## Earthing Box with Safety Label - Green

The IP56 Earth Electrode Box is made from ABS plastic, designed to safeguard and stabilize the connection to an earth point. Each box includes four pozi-drive screws for installation and a warning sticker that reads 'SAFETY ELECTRICAL CONNECTION - DO NOT REMOVE', to deter tampering.

### When should you use Earth Electrode Boxes?

Earth Electrode Boxes, also known as Earthing Connection Boxes, are intended for use in the UK market as they are equipped with the necessary warning label. These boxes are specifically crafted to accommodate earth wire connections to earth bars or rods.
