

HCS - POZI DRIVE HI-TEC TURBO SCREWS

Material:

Steel

Finish:

Zinc Yellow Passivated

OTHER ADDITIONAL INFORMATION

Deep cut thread, fluted, sharp point (type 17) Hi-Tec Countersunk Chipboard Screws Hi-Tec screws have been developed by Deligo as a premium Woodscrew which due to special designs from the point, through the body to the head improves insertion speed and pull out, ideal for hard and softwood and MDF.

Hi-Tec Head

- Deep punched Pozi Recess for a deeper driver hold
- Improved countersinking due to 6 angled lobes under head
- Double Countersunk Neck preventing head breakage

Hi-Tec Body

- Improved pull out provided by a serrated cutting edge
- Wax Coated - faster and easier insertion and reduces splitting
- Deep Cut Thread

Hi-Tec Tip

- Double cutting point
- Type 17 Point reduces splitting and improves start time
- Serrated cutting edges reduces torque for faster firmer fix
- Hardened High Spec Material provides extra holding power
- Milling / Reaming mid-section reduces torque and prevents jacking
