

LWT - LADDER INSPECTION KITS

Description:

The ladder tag kits provide a comprehensive solution for all your ladder safety needs. Each kit includes durable ladder tag holders with a visible prohibition icon and ladder tag inserts for recording inspection details and quick reference. These kits are designed to streamline your inspection and control procedures. Ideal for all ladders, kick stools, and podiums.

The ladder tag inserts display the latest recorded information about a ladder's class, inspection period, and future inspections. The tags also serve as a quick reference checklist. Designed to be used with the ladder tag holders, these inserts ensure that important safety information is always visible. Inserts can be bought separately (LWC).
