

PTFE - PTFE TAPE

Description:

White PTFE Tape, ideal seal material for the installation of liquid pipelines and enhancing the air tightness of pipeline connections.

Material:

100% PTFE

OTHER ADDITIONAL INFORMATION

| | |
|-----------------------------|--------------|
| Colour | White |
| Width (mm) | 12 |
| Length (m) | 12 |
| Total Thickness (mm) | 0.10 |
| Density (g/cm3) | 0.35 |
| Tensile Strength (N/mm2) | 8 |
| Percentage Elongation (%) | 25 |
| Pressure Resistance (Bar) | 30 |
| Temperature Resistance (°C) | -190 to+ 370 |
